

TRAINING - TRAINING - TRAINING IN OHIO **CALLING ALL TECHS... CALLING ALL TECHS...**

NesdaOHIO IS PROUD TO ANNOUNCE First Call for its annual WEEKEND OF TRAINING, Embodying NesdaOHIO's commitment to technical excellence. I Know, It's Early, but We want to give everyone ample time to make their travel arrangements and get their Registration in. – Besides, Last year the event filled up in JULY, and we had to turn away over a dozen Techs.

This year, we are privileged to provide a venue whereby some of the most talented Trainers from **Six Major Electronics Manufacturers** can add to our storehouse of skills. Best of all, **None of these classes conflicts with another**, so you can catch all six of them

You'll see **Sony's** Chad Tremble cover Sony's Products. You will See Paul Pieri from **Samsung** discuss the Newest and Greatest from Samsung. Jim LeClair from **Toshiba** will showcase their new product line. **LG's** Chris Gerrick will present the new LG series. David Perry from **Mitsubishi** is returning to Ohio this year will instruct us in some of **MDEA's** new products. Joe Blanks from **Panasonic** will also be returning for your technical enjoyment. As an Added Bonus, **LG's** Chris Gerrick is a **CET Test** Administrator and has agreed to administer the CET Test to any interested Technician. Several Tech's took the test at last year's event, and were added to the roster of current CET's

That's a lot under One Roof, and it will take 3 days to cover it all. The event is scheduled for Sept 16, 17, & 18 (Thursday, Friday, & Saturday) at the Former Holiday Inn in Hudson, Ohio. It's called the "**Clarion Inn**" these days but is in the same building at the same location shown elsewhere on this website. If you've been to an Ohio Training Event before, you know the place. The Training room has "Theater Seating", and a good sight line from every seat in the house.

Sponsors: Mitsubishi to sponsor a coffee break – thank you Mitsubishi !
